

# AGENDA

## Broadband Advisory Council Meeting

December 6, 2024

10:00 a.m. to 12:00 p.m.

### In-Person Option:

Meadow Hall (Meadow Event Park)

13111 Dawn Blvd

Doswell, VA 23047

### Virtual Option (via Microsoft Teams):

Join on your computer, mobile app or room device

[Click here to join the meeting](#)

Meeting ID: 290 657 364 174

Passcode: j6VywC

[Download Teams](#) | [Join on the web](#)

### Or call in (audio only)

[+1 434-230-0065,,65805920#](#) United States, South Hill

Phone Conference ID: 658 059 20#

- |       |   |   |
|-------|---|---|
| I.    | Opening   |   |
|       | a. Call to Order                                | Chairman  |
|       | b. Roll Call                                    | DHCD Staff  |
| II.   | Consent Agenda                                  | Chairman  |
| III.  | Approval of Minutes: August 16, 2024 Meeting    |   |
| IV.   | Overview of Discussion                          | Bryan Horn, Director, DHCD<br>Tamarah Holmes, Ph.D., Director,<br>Office of Broadband |
| V.    | Office of Broadband Updates                     | Office of Broadband Staff   |
|       | a. Virginia Telecommunication Initiative (VATI) |   |
|       | a. Virginia Make Ready initiative (VMRI)        |   |
|       | b. BEAD Deployment                              |   |
|       | c. BEAD Non-Deployment                          |   |
|       | d. Digital Opportunity                          |   |
| VI.   | Public Comment                                  | Chairman  |
| VII.  | New Business                                    | Council Members   |
| VIII. | Adjournment                                     | Chairman  |

BROADBAND ADVISORY COUNCIL

UNAPPROVED MINUTES

August 16, 2024

10:00 AM

Fredericksburg Branch Library Theater

1201 Caroline Street

Fredericksburg VA 22401

Virtual Option provided via Microsoft Teams

Members Present

Tamarah Holmes, Ph.D.  
Delegate Herring  
Delegate Willett  
Delegate Srinivasan  
Senator Boysko  
Casey Logan  
Rich Schollman  
Senator Hackworth  
Steve Sandy  
Jimmy Carr  
Ray LaMura  
Delegate Leftwich  
Kristie Proctor

Members Absent

None

Call to Order	Senator Jennifer Boysko, Acting Chair of the Broadband Advisory Council, called the meeting to order at 10:07 a.m.
Roll Call	Chandler Vaughan, Associate Director at the Office of Broadband, called the roll and stated that a quorum was present.
Approval of Minutes: January 9, 2024 Meeting	A motion was made and properly seconded to approve the minutes of the January 9, 2024, meeting of the Broadband Advisory Council. The motion passed to adopt the minutes as presented.
General Remarks	Acting Chair Boysko provided an opportunity opening remarks, to come before the Broadband Advisory Council. Dennis Clark, Librarian of Virginia, advocated on behalf of the library system as a longstanding beacon and community institution which advances digital equity and access across the state.

	<p>Bryan Horn, VA Department of Housing and Community Development (DHCD) provided remarks on the recognition Virginia has received in efforts to bridge digital divide (e.g. BEAD, Makeready, Digital Opportunity).</p>
<p>Overview of Discussion</p>	<p>Tamarah Holmes Ph.D., Director of the Office of Broadband provided brief verbal updates on the Office’s work, including last-mile deployment program the Virginia Telecommunication Initiative (VATI), Broadband Equity and Access Deployment (BEAD) program, and Digital Opportunity. Detailed how we are moving slowly from infrastructure to affordability and adoption of broadband via Digital Equity administered through National Telecommunications and Information Administration (NTIA).</p>
<p>Office of Broadband Updates</p>	<p>Caroline Luxhoj, VATI Program Manager, presented on: historical funding of the program (FY17-FY23), the risk determination process in light of new language added to FY2025 and FY2026 biennium budget, and the most recent round of awarded programs announced by Governor Youngkin this past July.</p> <p>Chandler Vaughan, Associate Director of the Office of Broadband presented on other initiatives to streamline federal project delivery. Utilizing FCC’s 214 process to take defaulting projects under CAF-2 and RDOF and leverage the transfer process to keep federal dollars in Virginia and deliver connectivity to unserved regions.</p> <p>Chadler Vaughan, Associate Director of the Office of Broadband provided an overview of the Virginia Make Ready Initiative (VMRI) regarding key budget language for \$30,000,000 to provide supplements to eligible FY2022 VATI projects for make-ready costs regarding those determined to be at-risk for completion by December 31, 2026. He also provided an overview of federal last-mile deployment program, BEAD, to close the availability gap because “access to affordable, reliable high-speed broadband is essential to full participation in society.”</p> <p>Kalya Bravo, Intern in the Director of the Office of Broadband, provided a high-level overview of Virginia Digital Opportunity Initiatives: (1) Virginia Affordability and Adoption Planning Grant Program; (2) State Digital Equity Capacity Grant Program; (3) Digital Equity Competitive Grant Program. VAAPG helps cities, counties, and tribal governments understand broadband affordability and adoption needs in their jurisdictions, better preparing them to address these needs.</p>

	Chris Glover, Assistant Director for IT, at Central Rappahannock Regional Library presented on the technology timeline of early broadband extending to the contemporaneous moment.
Public Comment	<p>EJ Scott, Chair of Virginia Economic Justice Committee of the NAACP, wants to inquire and ensure we are addressing equity in the advancement of broadband. Ms. Scott asked the following:</p> <p>Any demographics for the survey?</p> <p>Are there parameters set for low-cost options? What might be low-cost to you, may not be to others?</p> <p>Quality of connection to the home once established?</p>
Adjournment	Upon a motion made and properly seconded, the meeting was adjourned at 12:01pm.

Unapproved

 **Broadband Advisory Council Meeting**  
**December 6, 2024**

 VIRGINIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT  
Partners for Better Communities

1

 **Call to Order**

 VIRGINIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT  
Partners for Better Communities

2

 **Roll Call**

 VIRGINIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT  
Partners for Better Communities

3

 **Consent Agenda**

 VIRGINIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT  
Partners for Better Communities

4

 **Approval of Minutes:**  
**August 16, 2024 Meeting**

 VIRGINIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT  
Partners for Better Communities

5

 **Overview of Discussion**

**Bryan Horn, Director, VA Department of Housing and Community Development (DHCD)**

**Tamarah Holmes, Ph.D, Director, Office of Broadband**

 VIRGINIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT  
Partners for Better Communities

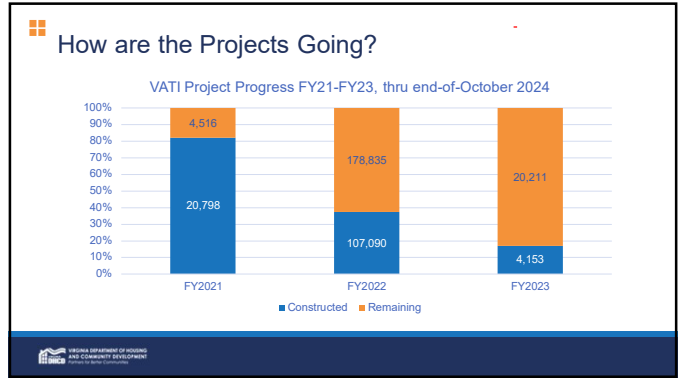

6

## Office of Broadband Updates

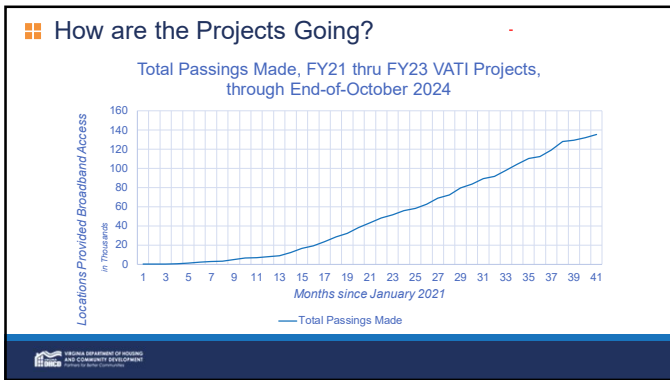

In Order of Presenting:

**Caroline Luxhoj**, Program Manager, Virginia Telecommunication Initiative  
**Chandler Vaughan**, Associate Director  
**Tamarah Holmes**, Director

7

8

9

### VATI Quarterly Performance Report

- In 2024, the General Assembly required DHCD to submit its VATI Performance Report quarterly.
- Includes:
  - # of passings
  - Grant dollars expended by funding source
  - Contract performance period
  - Progress towards project delivery
  - Max advertised speeds
  - Achievement of key project milestones.
- First quarterly report was submitted on October 30th. Next due date is January 31st.

10

11

### Virginia Make Ready Initiative Overview

**Summary of Key Budget Language:**

- \$30 million to provide supplements to eligible FY2022 VATI projects for make-ready costs
  - Applicants must be determined to be at-risk for completion by Dec. 31, 2026 to be eligible
- No more than \$30,000 per mile may be awarded for pole replacements, mid-span pole installations, and undergrounding in certain instances
- Program must be up and running by September 2024
- Funds must be expended by June 30, 2025 by grantees

12

### Virginia Make Ready Initiative Awards to Date

- September**
  - \$2,656,961.10 in funding awarded
  - \$963,864.49 in leveraged funds
  - 3,520 locations enabled to receive broadband access
- October**
  - \$6,587,744.14 in funding awarded
  - \$2,189,902.71 in leveraged funds
  - 4,871 locations enabled to receive broadband access
- November**
  - \$9,792,544.18 in funding awarded
  - \$3,293,781.46 in leveraged funds
  - 11,240 locations enabled to receive broadband access
- December**
  - \$10,962,750.58 in funding available
    - Application deadline yesterday

13

13

### Virginia Make Ready Initiative Awards to Date

#### VMRI Funds by Grantee

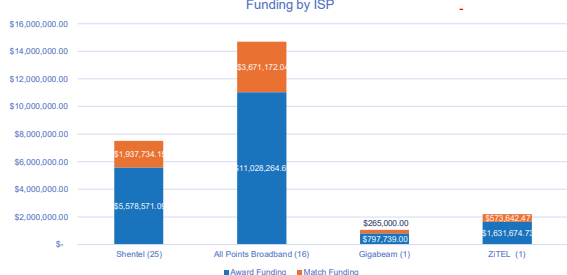

14

14

### Virginia Make Ready Broadband Initiative Awards to Date

#### Funding by ISP

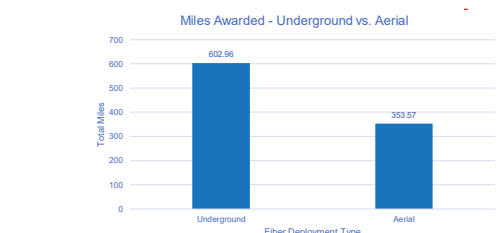

15

15

### Virginia Make Ready Initiative Awards to Date

#### Miles Awarded - Underground vs. Aerial

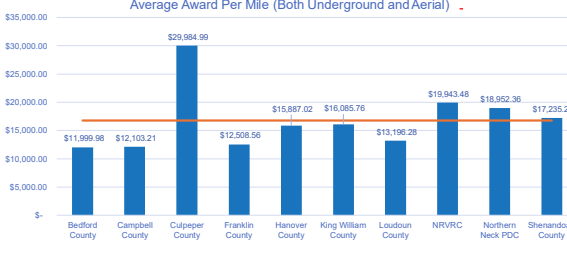

16

16

### Virginia Make Ready Initiative Awards to Date

#### Average Award Per Mile (Both Underground and Aerial)

17

17

### BEAD Update: Deployment

Before we can begin the full application process in December 2024:

**Challenge Process Results must be Certified by NTIA**

- o +/- 131,000 BEAD Eligible Locations
- o Scattered Locations in Urban Areas
- o Line Extensions

18

18

### BEAD Deployment: What's Coming Next?

**Late 2024/Early 2025**  
Full application starts

**Late Spring 2025**  
Awards announced for every location

**Early 2026**  
Projects clearing federal hurdles, getting underway

19

### BEAD Update - Deployment

- Letter of Intent Window Closed November 30th
  - 47 Letters of Intent Received
- 90 Day Full Application Window began December 1st
  - Approval of BEAD eligible locations pending
- DHCD continuing to provide resources to garner participation from all broadband providers.

20

### BEAD Update – Letters of Intent

**47 Letters of Intent Received**

- Wide range of technology types
  - Fiber, Satellite, Fixed Wireless
- Geographical diversity
- List available online at [dhcd.virginia.gov/bead](http://dhcd.virginia.gov/bead)

*Map of interest in each city and county to be included prior to presentation*

21

### BEAD Non-Deployment Update

Virginia's work to build on the momentum of addressing broadband access to close the whole digital divide.

22

### What is BEAD "Non-Deployment"?

**Summary**

- The federal Broadband Equity, Access, and Deployment (BEAD) Program's primary purpose is to expand broadband access to reach the unserved.
- States can use excess BEAD funds to invest in "Non-Deployment" Uses

**Eligible Uses**

- Federal rules establish broad eligible uses for these funds.
- The full list of eligible uses is to the right, which DHCD has been authorized to utilize Non-Deployment funds for via a 2024 budget amendment.
- NTIA, the federal BEAD administrator can approve additional uses.

**Anticipated Budget**

- The budget for BEAD Non-Deployment depends on how much of Virginia's \$1.48B BEAD allocation is needed for deployment.
- DHCD estimates approximately \$500M will be available for "Non-Deployment", with up to as much as \$750M potentially coming available

- User training with respect to cybersecurity, privacy, and other digital safety matters.
- Remote learning or telehealth services/facilities.
- Digital literacy/upskilling (from beginner-level to advanced).
- Computer science, coding and cybersecurity education programs.
- Multilingual outreach to support adoption and digital literacy.
- Prisoner education to promote pre-release digital literacy, job skills, online job acquisition skills, etc.
- Digital navigators.
- Direct subsidies for use toward broadband subscription.
- Costs associated with stakeholder engagement, including travel, capacity-building, or contract support.

23

### BEAD Non-Deployment Funding in Virginia

**\$1.48B** Total VA BEAD allocation

Funding to be first allocated to achieve universal broadband access, then remaining funds for non-deployment activities, including state agency partnerships

Virginia state agencies to administer grants to programs supporting the 11 types of non-deployment activities

**Eligible Uses of Funding**

- Digital opportunity plan implementation
- Promoting Broadband Affordability
- Remote learning & telehealth services
- Multilingual outreach to support digital literacy
- Stakeholder engagement costs
- Broadband sign-up assistance & tech support programs
- Digital safety & cybersecurity user training
- Digital navigators
- Digital literacy & upskilling
- Prisoner education
- Computer science, coding, & cybersecurity education

**Sample Use:** Administrative funding to support new and expanded digital opportunity programs

**Sample Program:** Device and smartphone trainings for English learners in libraries, schools, prisons, etc.

**Sample Program:** Cybersecurity, scam, & financial 101 trainings for aging adults

**Sample Program:** Developing smart agriculture technologies and capabilities for farming practices

**Sample Program:** Workforce development centers make Chromebooks available to the public in to facilitate their reentry into the workforce

24

### DHCD's Approach to Non-Deployment Recommendations

**Sustainability is an Unnegotiable**

- The Commonwealth would waste this one-time opportunity by investing in programs that have short lifespans and no plans for long term sustainability.
- DHCD's approach is to ensure they are sustainable from the start and will not require ongoing funding.
  - Any connected device programs, must have a plan to refurbish those devices

**The More Infrastructure, The Better**

- While the title of "non-deployment" indicates broadband infrastructure cannot be deployed, NTIA staff have signed off on infrastructure programs, like cell coverage and multi dwelling unit connectivity.
- The more infrastructure that can be built under this program, the better, as these investment will be long term, transformational, and permanent.

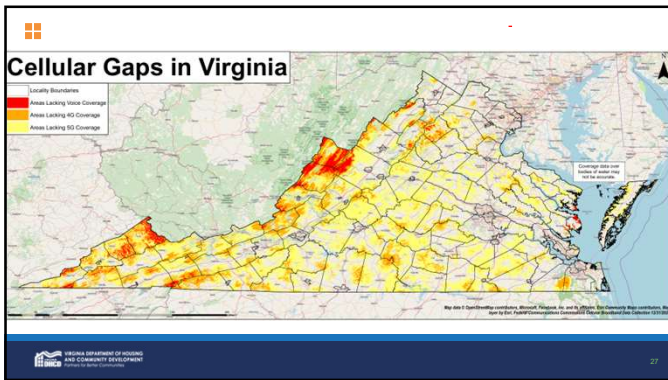

25

### Cellular Connectivity

- Preliminary mapping shows ~9,200 locations that can't make a phone call, and an additional ~45,000 locations can call and text, but nothing else.
- A cellular connectivity program would help cover the cost of cell towers and extend cell service to these locations, roads, and regions without baseline cell coverage
- Towers can be leveraged for emergency services, local government and private-sector needs

26

27

### Multi Dwelling Unit (MDU) Connectivity

- While broadband service is usually available around MDUs and apartment buildings, units within those buildings sometimes don't have individual lines running to them
- Families and individuals within these buildings without individual connections often operate on sub-par, shared Wi-Fi networks that do not meet modern internet speed standards
- This program would work with broadband providers to provide unit-level connectivity to unserved MDUs, targeting low-income households first, then all such buildings

28

### State Agency & State Organization Partnerships

- DHCD is building capacity with state agencies regarding broadband adoption partnerships
- To date, conversations have been held with 25 agencies, with more to come
- Some example partnerships include: (not an all-inclusive list)
  - Partner with disability-oriented agencies for technology programs (DBVI, DARS, DDHH)
  - Partner with DVS for re-entry programs centered around technology and connectivity
  - Partner with Va Coop. Ext. for precision agriculture programs/smart farming adoption
  - Partner with Library of VA and DOE Adult Education to promote senior cybersecurity

29

### Broadband Equity Access and Deployment (BEAD) Program in the Commonwealth

**Overview**

The Commonwealth of Virginia was awarded \$1.48B in BEAD funds and DHCD is finalizing plans to extend broadband infrastructure to the remaining unserved locations and **design non-deployment programs to meaningfully address broadband affordability and adoption.**

**We are here.**  
Engagement with state agencies to finalize plans for non-deployment funds.

NTIA approved Volume 2 of the Initial Proposal July 25, 2024, establishing the Commonwealth's vision for the BEAD Program and enable Virginia to be awarded funds

VA DHCD and partners have until July 2025 to present non-deployment projects in Final Proposal

**Timeline Consideration:**  
All BEAD timelines are dependent on ongoing federal guidelines and are subject to change

30

**Non-deployment projects allow flexibility and give the Commonwealth a chance to invest in core digital opportunity focus areas**

The BEAD guidelines detail 12 eligible uses for non-deployment funds. Office of Broadband has aggregated project ideas into focus areas supporting the digital needs of residents.

31

31

**The team reviewed and coordinated efforts, collecting 120 project ideas, refining to ~30 projects approaching \$100M in costs. We will continue to refine this list to support digital opportunity across VA.**

Methodology for Project Identification and Refinement

32

32

**The Commonwealth's non-deployment projects span across the digital opportunity categories, supporting a wide range of interventions**

Education/Devices and Digital Literacy/Accommodations represents the category with the most projects

66% of the budget is reflected in the top three categories

33

33

**The projects will impact Virginians across the state with most projects servicing more than one covered population identified in the Digital Opportunity Plan**

Percentage of Projects Impacting Covered Population

34

34

**Projects will be unique, evidence based, and impactful**

Sample Project Spotlights

**Statewide Digital Navigator Program**  
This project would organize a statewide digital navigator program. Individuals would be staffed in libraries to provide 1:1 technical assistance to residents trying to access affordable internet plans, devices, and online resources. The program would improve digital literacy, assist with job readiness, and reduce the burden on existing library staff.

**Agriculture Business and Innovation**  
This project would implement a multi-pronged approach to support broadband-enabled agricultural technology adoption. The project would fund 5 specialized digital navigators, provide cost-sharing fund for new technologies, and equip Agricultural Research Centers with demonstration equipment to showcase innovative agricultural practices.

35

35

**For the Specific Questions on State Agency Partnership Development**

Please address additional questions to:

**Chandler Vaughan**  
Associate Director, Office of Broadband | Virginia DHCD  
804-801-7124 | chandler.vaughan@dhd.virginia.gov

**Colin Hood**  
Director, State and Local Government | Guidehouse  
804-691-7268 | chood@guidehouse.com

**Christiana Gurgick**  
Director, State and Local Government | Guidehouse  
202-577-3412 | ogurgick@guidehouse.com

36

36

### Gap-Fill Long Term Connectivity Barriers

- Flaws in federal BEAD mapping will lead to gaps in connectivity, especially at recently built homes, secondary homes on a same parcel, and homes covered by dense tree canopies
- Deployment challenges, like railroad crossings and private easements will also lead to one-off locations without connectivity discovered during project build outs
- This program would fund innovative technology solutions – like low earth orbit satellite technologies - to reach these left behind locations

37

37

### Proposed Uses for BEAD Non-Deployment Funding

Category	Description
Cellular Connectivity*	Identify gaps in cell coverage and build infrastructure through private sector partnerships to serve regions without voice and data cell coverage.
Multi Dwelling Unit (MDU) Connectivity*	Identify MDUs that don't have unit level broadband availability and extend connectivity to units
State Agency Partnerships and Programs*	Partner with other state agencies to implement broadband adoption programs under the other agencies' respective missions and priorities.
Gap Fill Long Term Connectivity Barriers	Utilize innovative technologies to reach locations that will be inevitably mis-mapped under BEAD

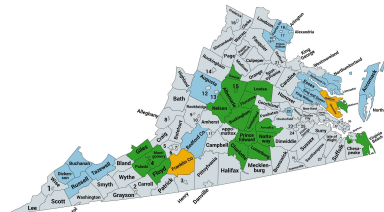

\* These programs have been verbally approved by NTIA administrators.

38

38

### Update on the VAAPG Program

1 Norton	12 Staunton	23 Colonial Heights
2 Galax	13 Waynesboro	24 Petersburg
3 Martinsville	14 Harrisonburg	25 Kingsville
4 Radford	15 Charlottesville	26 Emporia
5 Roanoke Co	16 Winchester	27 Franklin
6 Salem	17 Fairfax	28 Williamsburg
7 Roanoke	18 Falls Church	29 York
8 Covington	19 Manassas	30 Popponess
9 Lexington	20 Manassas Park	31 Hampton
10 Buena Vista	21 Fredericksburg	32 Newport News
11 Lynchburg	22 Richmond	33 Portsmouth
