

VA WEATHERIZATION ASSISTANCE PROGRAM

Information Notice 06-2017

TO: ALL WEATHERIZATION SUB-GRANTEES
FROM: NANCY PALMER, HOUSING PROGRAMS MANAGER/ *npalmer*
DATE: 10/4/2017
SUBJECT: LSW Training requirement per WPN 17-7

This notice supersedes information regarding Mandatory Technical Training outlined in *Information Notice 03-2017*

Pursuant to Department of Energy's WPN 17-7, Lead Safe Weatherization (LSW) training is no longer required by DOE.

However, Virginia DHCD will still require that any employee operating in a job role (Crew Worker, Crew Leader, and Energy Auditor) attend this training.

Subcontractors will only be required to attend LSW training if they are operating in one of the aforementioned job roles. Subcontractors performing duties not related to job roles will not be required to attend LSW training but should be supervised by the subgrantee's EPA Renovate, Repair, and Paint (RRP) representative when necessary.

All employees working on a Virginia Wx job shall have OSHA-10 /30 or be able to prove competence with verification of equivalent training.

As a reminder, Virginia-required Energy Auditor training shall include Hancock's HEAT training in lieu of former NEAT/MHEA training as outlined in Information Notice 03-2017.
